Terrain | Easy-Clean Squab Collection

Designed for learning spaces

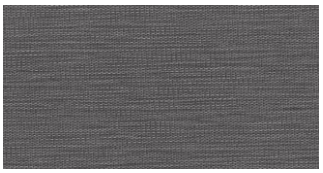

Inspired by the textures and tones found in nature, Terrain offers a warm, residential aesthetic designed to create calm, welcoming learning environments. Its subtle woven appearance adds softness and visual interest while complementing timber furniture, natural materials and contemporary ECE interiors.

Protected by a durable, easy-clean surface, Terrain is well suited to early childhood settings where comfort, hygiene and everyday practicality are equally important. The versatile colour palette helps create inviting spaces that support learning, connection and wellbeing.

● **IN STOCK** Fern, Riverstone and Harbour are held as primary stock colours. All other Terrain colours are made to order.
